## eptos™ Classification Manager

eptos™ Online Master Data Repositories support companies and organizations to work with consistent master data throughout the organization.

The eptos™ Classification Manager provides functionalities for development, maintenance and provision of multiple classification systems.

# eptos™ Classification Manager

## eptos™ Product Master Data Repository

Today, companies deploy a wide range of IT-systems to support business processes and exchange information. One of the critical success factors is the reliable administration and electronic exchange of materials master data, product master data and services master data between systems within the organization as well as to suppliers and customers. Our global markets require the support of increasing numbers of different language versions.

Errors due to misunderstandings, wrong interpretation or translations of words, features or symbols result in high expenses and drive product and service prices.

eptos™ Product Master Data Repositories support companies and organizations to overcome these problems and support the development and provision of corporate wide consolidated and multi-language product master data. Consistent master data will be provided to all connected application systems (ERP, CAx, PDM, eCatalogs, etc.). Consolidated product master data reduces the complexity of your business process.

## eptos™ Classification Manager

The eptos™ Classification Manager provides for development, maintenance and provision of multiple classification systems. It allows both for usage of standard classifications as well as creation of individual hierarchies.

### Target group

eptos™ customers who desire to maintain their data in one or more hierarchies.

## Features

- Maintenance of one or more classification hierarchies
- Extension of standard classifications by own classes
- Development and maintenance of own classification hierarchies
- Role based masking of classes
- Import of classification hierarchies via xls-interfaces (optional)
- Export of classification hierarchies via xls- interfaces (optional)
- Export of classification hierarchies in ontoML (ISO 13584-32) format (optional)
- Usage of business-rules checks

## Requirement

- eptos™ Base Module

## Our offer

- Software-license
- Maintenance and support contract
- Documentation
- Training, workshops and webinars

## Reference Implementations:

We are proud that eptos™ solutions are also successfully used by:
